COURSEWORK

GRADUATE

Object Oriented Software Engineering

Object Oriented Programming

Data Structures

Database Management System

Operating Systems

Functional Programming

Computer Network

SKILLS

PROGRAMMING

Languages :

- C
- C++
- JAVA
- Python

Technologies:

- HTML • CSS • MySQL
- Javascript • PHP
- Android

Tools :

- Git / GitHub
- Linux / unix
- Windows • VS Code
- Android Studio

EXPERIENCE

2 MOTH | SOFTWARE ENGINEER

August - September

SMART INTERNZ | SOFTWARE ENGINEERING INTERN

Aug 2022 - sep 2022

- Grocery List Functionality: Implement a feature that allows users to create and manage a grocery list within the app. Users should be able to add items to the list, view the list, and edit or delete items as needed.
- Price Calculation: Develop functionality to calculate the total price of the grocery list. Users should be able to assign prices to each item and have the app automatically calculate the overall cost.
- User-Friendly Interface: Design an intuitive and visually appealing user interface that makes it easy for users to interact with the app. Provide clear options for adding items to the grocery list, displaying the calculated price, and managing the list effectively.
- Built a Nearby Place Finder app, can be created using the Google Places API to fetch information about nearby places based on the user's location or input, and displaying the results in an easy-to-understand format on the app's user interface

PROJECT

WORKER AGGREGATOR | FLUTTER | DART | FIREBASE |

- "Work Daily" Built a worker aggregator platform for gig workers using Flutter and Firebase. Conducted market research to address challenges faced by gig workers and designed a user-centric app to connect them with daily job opportunities. Led the development process, ensuring seamless functionality between frontend and backend. The platform successfully helps gig workers find jobs and employers hire efficiently..

ACHIEVEMENTS

- I have achieved the comprehensive 'Become a Software Developer' course on LinkedIn, showcasing proficiency in various programming languages, web development, and software design principles. Eager to leverage newfound skills and contribute to impactful projects in the software development domain.

EXTRACURRICULAR ACTIVITIES

PAINTING • Well painting is an extracurricular activity that helps develop creativity and fine motor skills while providing an outlet for emotional expression. It typically involves using paint and brushes to create artwork on a canvas or other painting surface, drawing inspiration from various sources
